

June 10, 2015

Dear Sir or Madam,

We are honoured to invite your university to participate in the greatest robotics competition in Northern Europe – Robotex 2015!

The event takes place for the 15th time already. This year the event will be more international than before and we would like to invite the students from your university to join and to give them an opportunity to put their engineering knowledge to the test. It can only be possible if the information reaches as many foreign robot builders as possible. Therefore we kindly ask you to distribute the information in your university - among the faculties, institutes and research groups who might be interested.

Robotex 2015 will be held on 4 to 6 December in Tallinn, Estonia. 17 fascinating robot contests and a grand Technology Exhibition will take place. More than 1000 robot builders and 15 000 visitors are expected to take part in Robotex 2015.

The event is free for all competitors!

Golden sponsors of Robotex 2015 are ICD Industries and Technobalt Group.

Major sponsors are Festo, Microsoft, iRobot, Stoneridge Electronics, Interflux Estonia, FinEst Steel, Ensto Ensek, Oomipood, Tehnikarent, Ldiamon and Klotsipood.ee.

We are kindly willing to help our foreign friends with travel details and accommodation.

Please find the introductory material and event poster in the following links:
